

**North Dakota Attorney General's Human Trafficking Commission  
Community Awareness & John School Pilot Project Subcommittee  
August 2, 2016  
BCI, Main Conference Room  
Bismarck, ND**

The North Dakota Human Trafficking Commission (NDHTC) Community Awareness & John School Pilot Project did not have quorum, therefore no meeting was called. Notes below are discussions only

Members Present: Christina Sambor, Msr. James Shea

Non Members Present: Chad Litton, Lonnie Grabowska, Alicia Rixen

Members Absent: Troy Seibel, Janelle Moos, Windie Lazenko, Robin Schmidt

**Notes:**

Lonnie discussed how BCI managed and rolled out the 24/7 program. He indicated that they started in the south central district, worked with the judges and the clerk of courts, worked through the bugs and gradually rolled the project out to other districts. He indicated that it was easy to start small and expand, the project was concerned with meeting resistance, which they did, but very few because of the way that they expanded the project. Thereafter, legislation was written in that the 24/7 program would be mandated after they could gather enough data to prove that the program was working.

Things that would need to be decided:

Report tracking- (FUSE could gather data from parole officers.)

Where the money is flowing through

Funding
